

Our Recycling Program

When many seasons have passed and it comes time to retire an artificial Christmas tree, consider being a real friend to the environment, and sending your tree to a recycling center, such as Intercon Solutions:

(888)452-5642 www.interconrecycling.com

For the cost of shipping a tree to Intercon Solution's recycling center in Chicago Heights, Illinois, plus about 25 cents per pound, you can rest easier knowing that all component materials in the tree will be separated and recycled.
